So famous is our beach—so beautiful, mysterious, threatening. In us these qualities are deeply rooted and they will remain forever.

Years ago, upon our arrival, we played upon it and thrilled to the crashing of its waves. How exuberant we were to witness a scene so magnificent! We saw the glory of the vast expansion of space and the gentleness of the drifting dunes,—so much, we did not understand but were content with these first impressions.

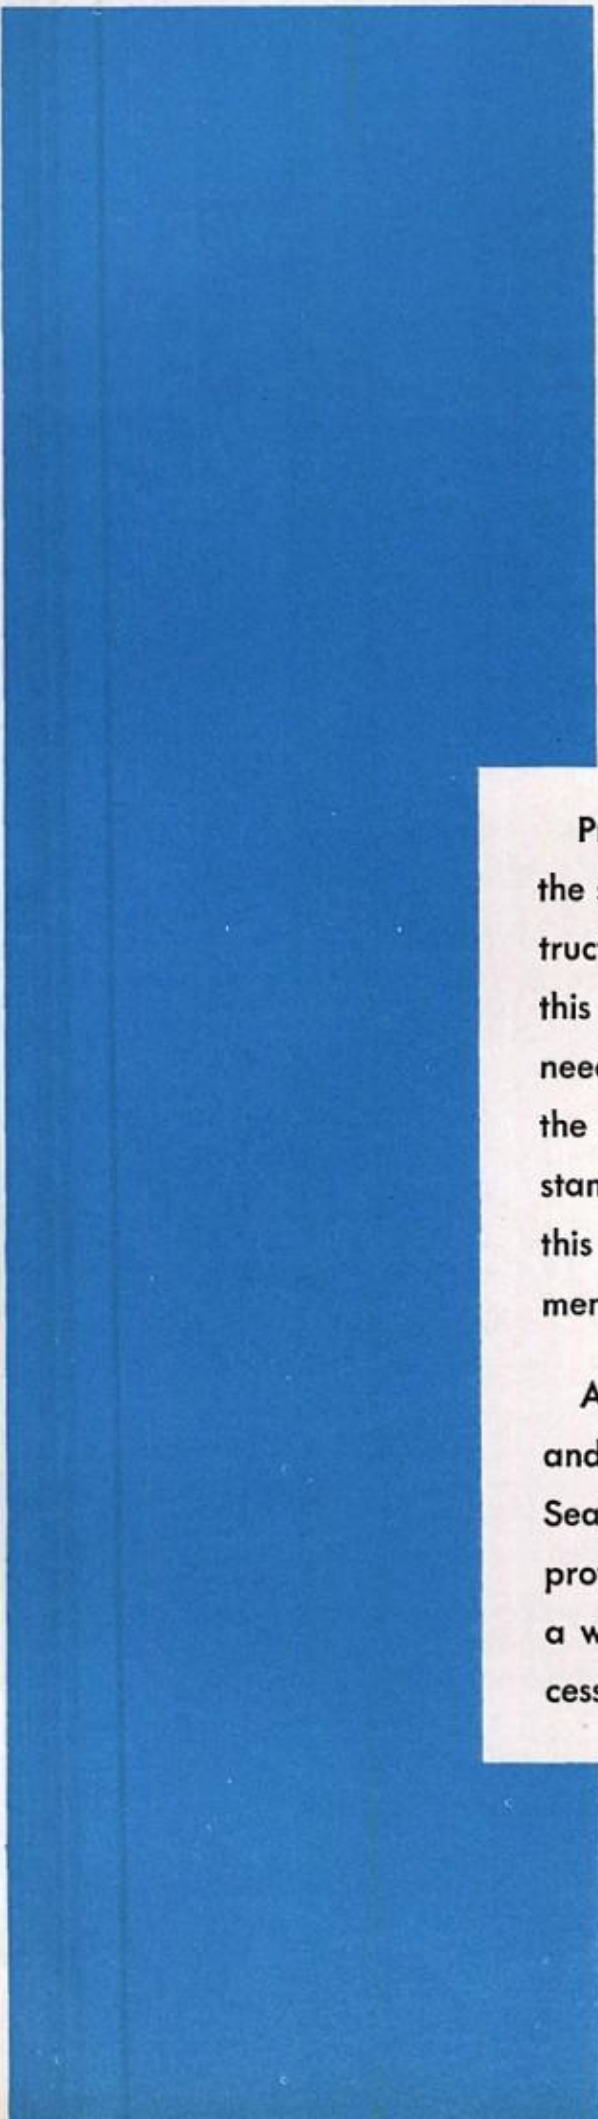

We are older now and our time is occupied with our quests for knowledge, ever important in this modern world. We plan for the future constantly and become wrapped up in our daily lives. Yet, our minds cannot shut out the fresh breeze and the pounding from the sea. We smell the salt in the air, feel the movements of the tides, and we are again drawn by its irresistible forces.

Now, we are able to search beneath our first impressions. Now, we can understand and trust those qualities which in the beginning awed us—the reason for the drifting dunes, the cause of the tides, the value of nature's gifts. So grateful are we for our miraculous landscape that we have set aside a special part of ourselves to become forever imbedded in our beach.

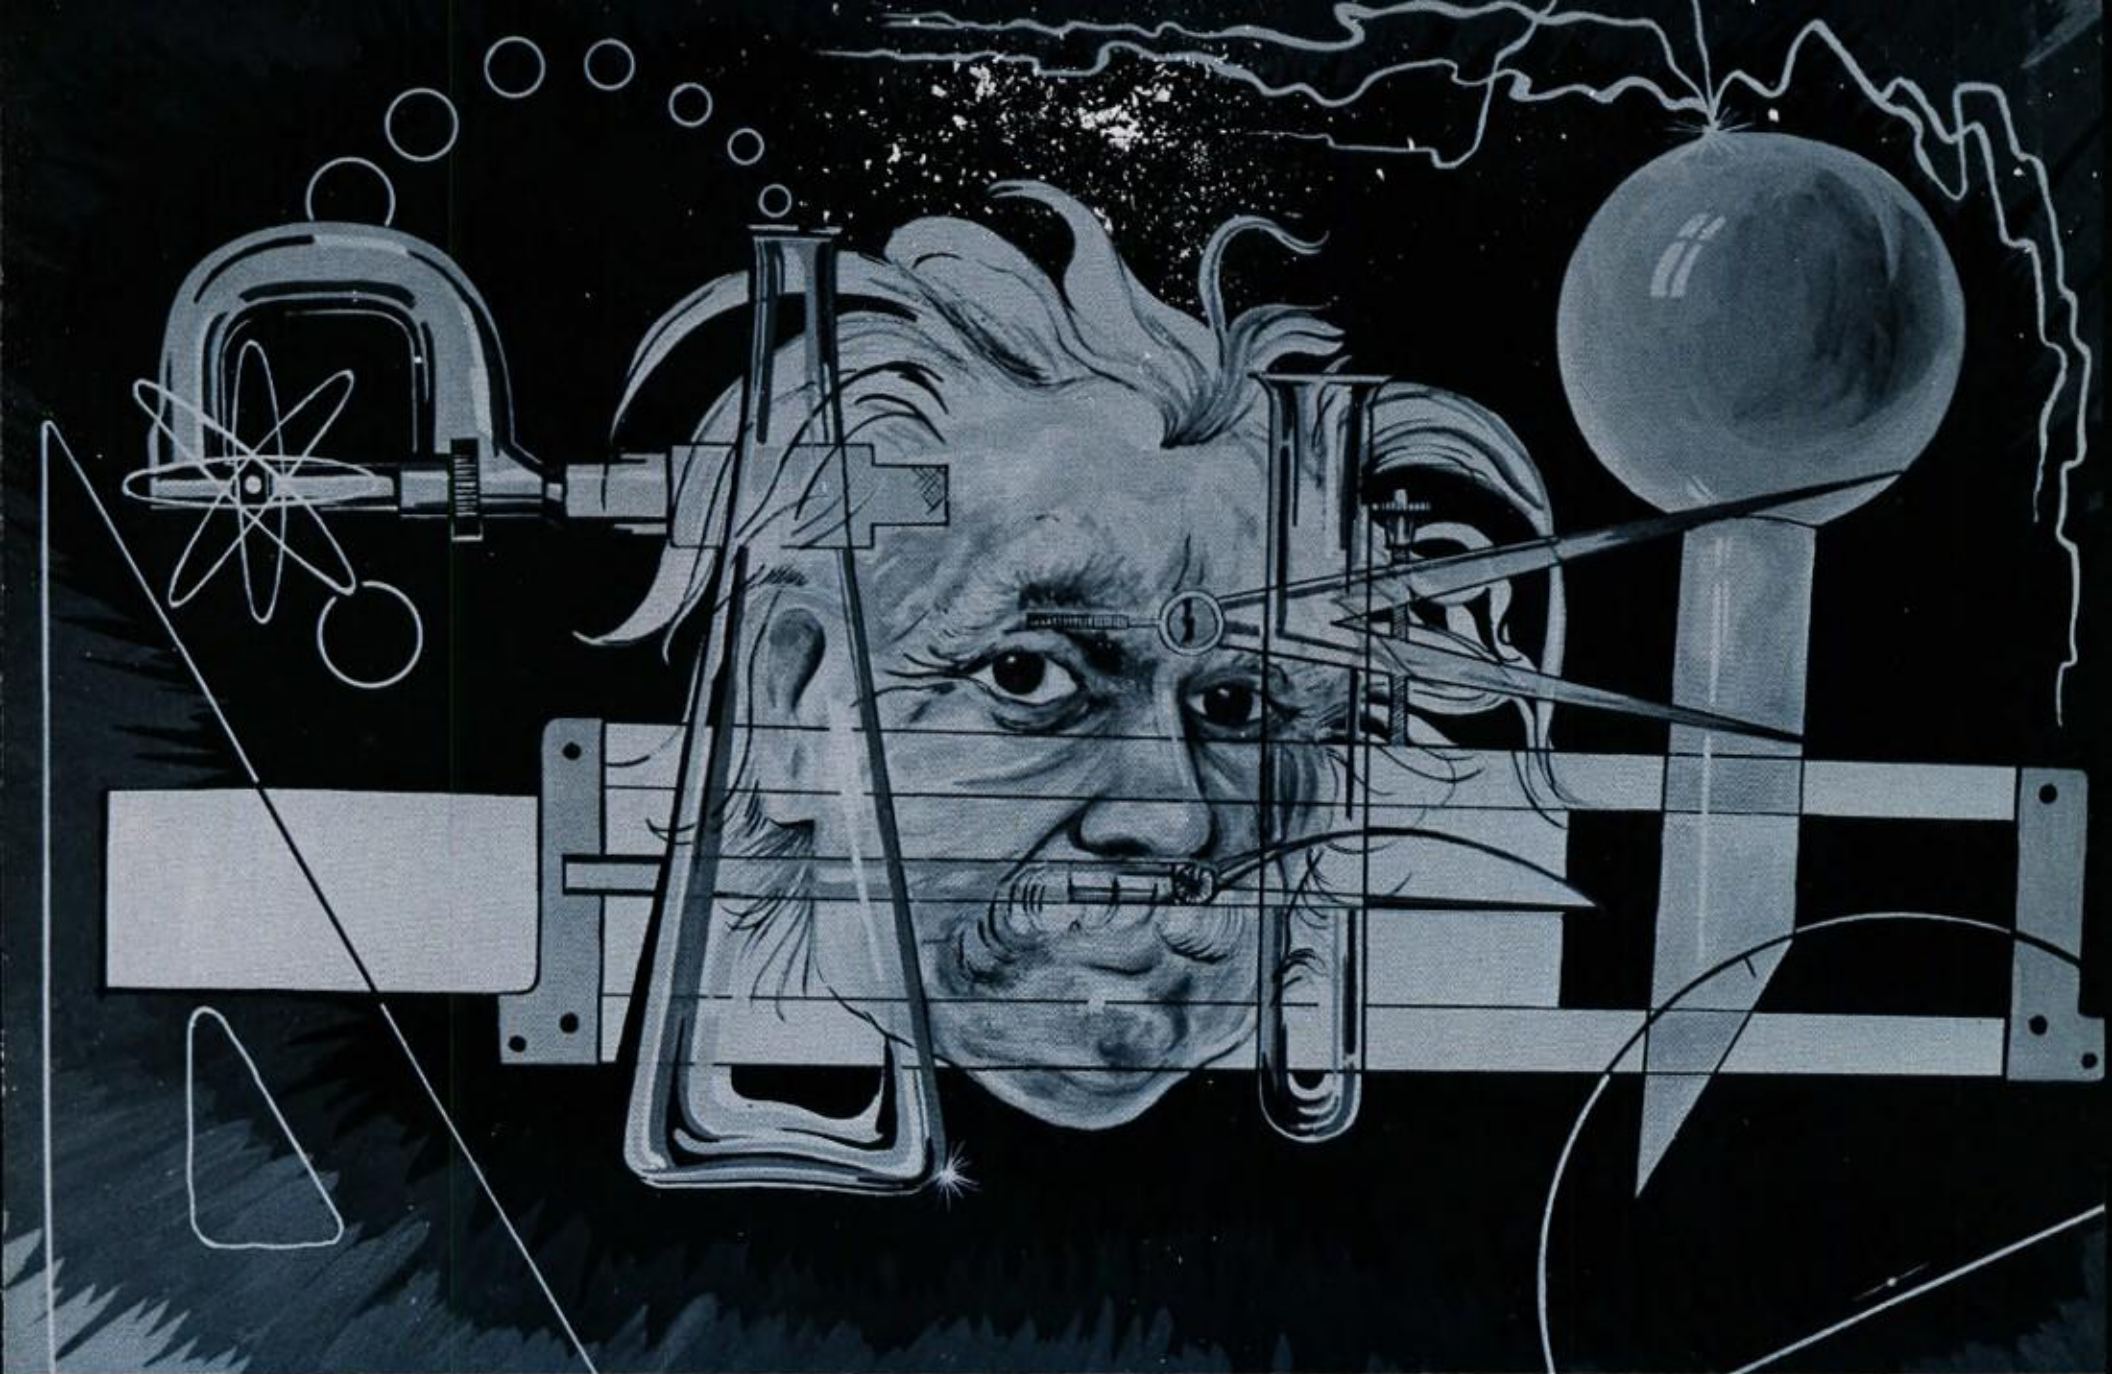

WORLD'S MOST FAMOUS BEACH

... FOREWORD

Primitive man first observed and made patterns of the stars. They knew nature for her beauty and destruction and were content for thousands of years with this small knowledge. As civilization developed, the need for more knowledge became a necessity. Thus, the oldest science of man, Astronomy, was given constant study and continual improvement. Never has this study slackened, and, today we realize its tremendous importance in our future conquest of Space.

As the gas balloons were transformed into airplanes and modern jets into missiles, so we, the students of Seabreeze High School, have developed and improved our minds in order that we may contribute to a worthy generation—the hope of our country's success in the future.

DEDICATION

Without knowledge in science we could have no plans for the future. As a rocket would falter without scientific tools, so we at Seabreeze would fail without scientific tools. These teachers have for many long years given their inexhaustible patience to impress this fact upon us. Now that the science of space has become so important we are especially grateful for the preparation toward our futures that these men have given us.

Many graduates of S.H.S. have places in their hearts for Mr. Jasper. Born in Martinsferry, Ohio—, he graduated from the University of Pittsburgh, receiving a M.A. degree. Mr. Jasper has never slackened in his study of science and he impresses upon us always the fact that a person may never become thoroughly educated. In our later life we will always remember him for his refreshing humor and unusually-but thoroughly conducted classes. To you, Mr. Jasper and to the science department of Seabreeze High School, the '59 Sandcrab staff gratefully dedicates this "Space" yearbook.

Operation X—in order to undertake the journey into outer space our equipment must be flawless. Our mechanics check and re-check the parts, sorting out-adding to.

Only by working together this destination may be accomplished. With Mr. Yates, the '59 Sandcrab staff planned and built our ship so that now we are able to complete Operation X.

THE PRINCIPAL

There seems to be a direct correlation between the contraction of man's world in terms of time and distance and the expansion of the universe in terms of man's knowledge of it. The science of space, then, is well on its way to a high degree of mastery of the physical world.

In the fact of these tremendous accomplishments we still find strife among mankind at a high peak. I urge all high school students to study and help solve the problems of human relations so that as mankind explores space the earth will still be a pleasant place to live.

OUR REGISTRAR

Newest of the ways at Seabreeze is the position of registrar. In the past many complications and misunderstandings have arisen dealing with our credits and those of transfer students because the responsibility had never been centralized. This year through the untiring efforts of Miss Adkins many of these problems have been eliminated.

OUR DEANS

New inventions have built our modern world into what it is today. New ways at Seabreeze are developing its students potentialities for tomorrow. With last year's experiences to draw upon, Mrs. Kraeuter and Mr. True understand our problems and ambitions and work with us to see a solution. We come to them for both educational and social guidance. Seabreeze owes much to its deans without whom our progress would be retarded.

Our library supplies us with additional tools of knowledge. Through research or pleasure reading we may seek and enjoy mysteries of interstellar life. To

encourage our studies and promote interest in science among students, Mrs. Rogers has worked long to make our library popular with our students.

The office is an efficient source of well-kept records, good public relations, and thoughtful help for the administration and faculty. Mr. Pepper, our secretary at

Seabreeze provides these and keeps our path of departure smooth.

Our school bookkeeper keeps records of all expenses of all clubs, organizations, and the school office. Miss Budgen has given many hours of her time

to work with student treasurers and through her efforts have our groups continued smoothly to progress.

STUDENT GOVERNMENT ASSOCIATION

Working with the Student Government of Seabreeze this year has been a pleasant and rewarding experience. S.G.A. is the government of our student body and through its capable leadership the work of the administration and faculty is greatly simplified. Mrs. Daphin Marshall.

As our solar system revolves around the sun, so we at Seabreeze revolve around our S.G.A. Without this organization we would have little opportunity to practice our country's democratic ways of living.

This year under our new sponsor, Mrs. Daphin Marshall, the S.G.A. has worked smoothly serving both students and teachers. In this way it has moved over the years to become known as an ideal high school government.

Our S.G.A. is administered by a president, vice-president, secretary, treasurer, and judge who are elected by the student body each semester. Each

class chooses a boy and a girl to represent its grade in the senate.

Under these officers are appointed court members and student police. Welcome and Guidance members are elected to further the friendly Seabreeze spirit. To these goes much of the credit that our smoothly running system receives.

As students of Seabreeze High School, we are proud to be a part of this organization and we strive to keep its reputation high in order that we may continue to function democratically. Stand straight students and keep strong your government; it is yours and you are its parts.

NURSE

Our earth men who are ejected into space must be in superior physical condition. Preparing us for our journey is our school nurse, Mrs. Bond.

CAFETERIA

We at Seabreeze have also become interested in physical fitness and seriously strive to perfect ourselves. Our new cafeteria, our nourishing noon meals, and our capable lunchroom manager, Mrs. Owens, have supplied us with the environment which aids and enables us to continue our studies.

CUSTODIANS

Order is an important necessity in the successful launching of our ship. These men, well-liked by every student, thus, enable us to continue on an uncluttered path.

P. T. A.

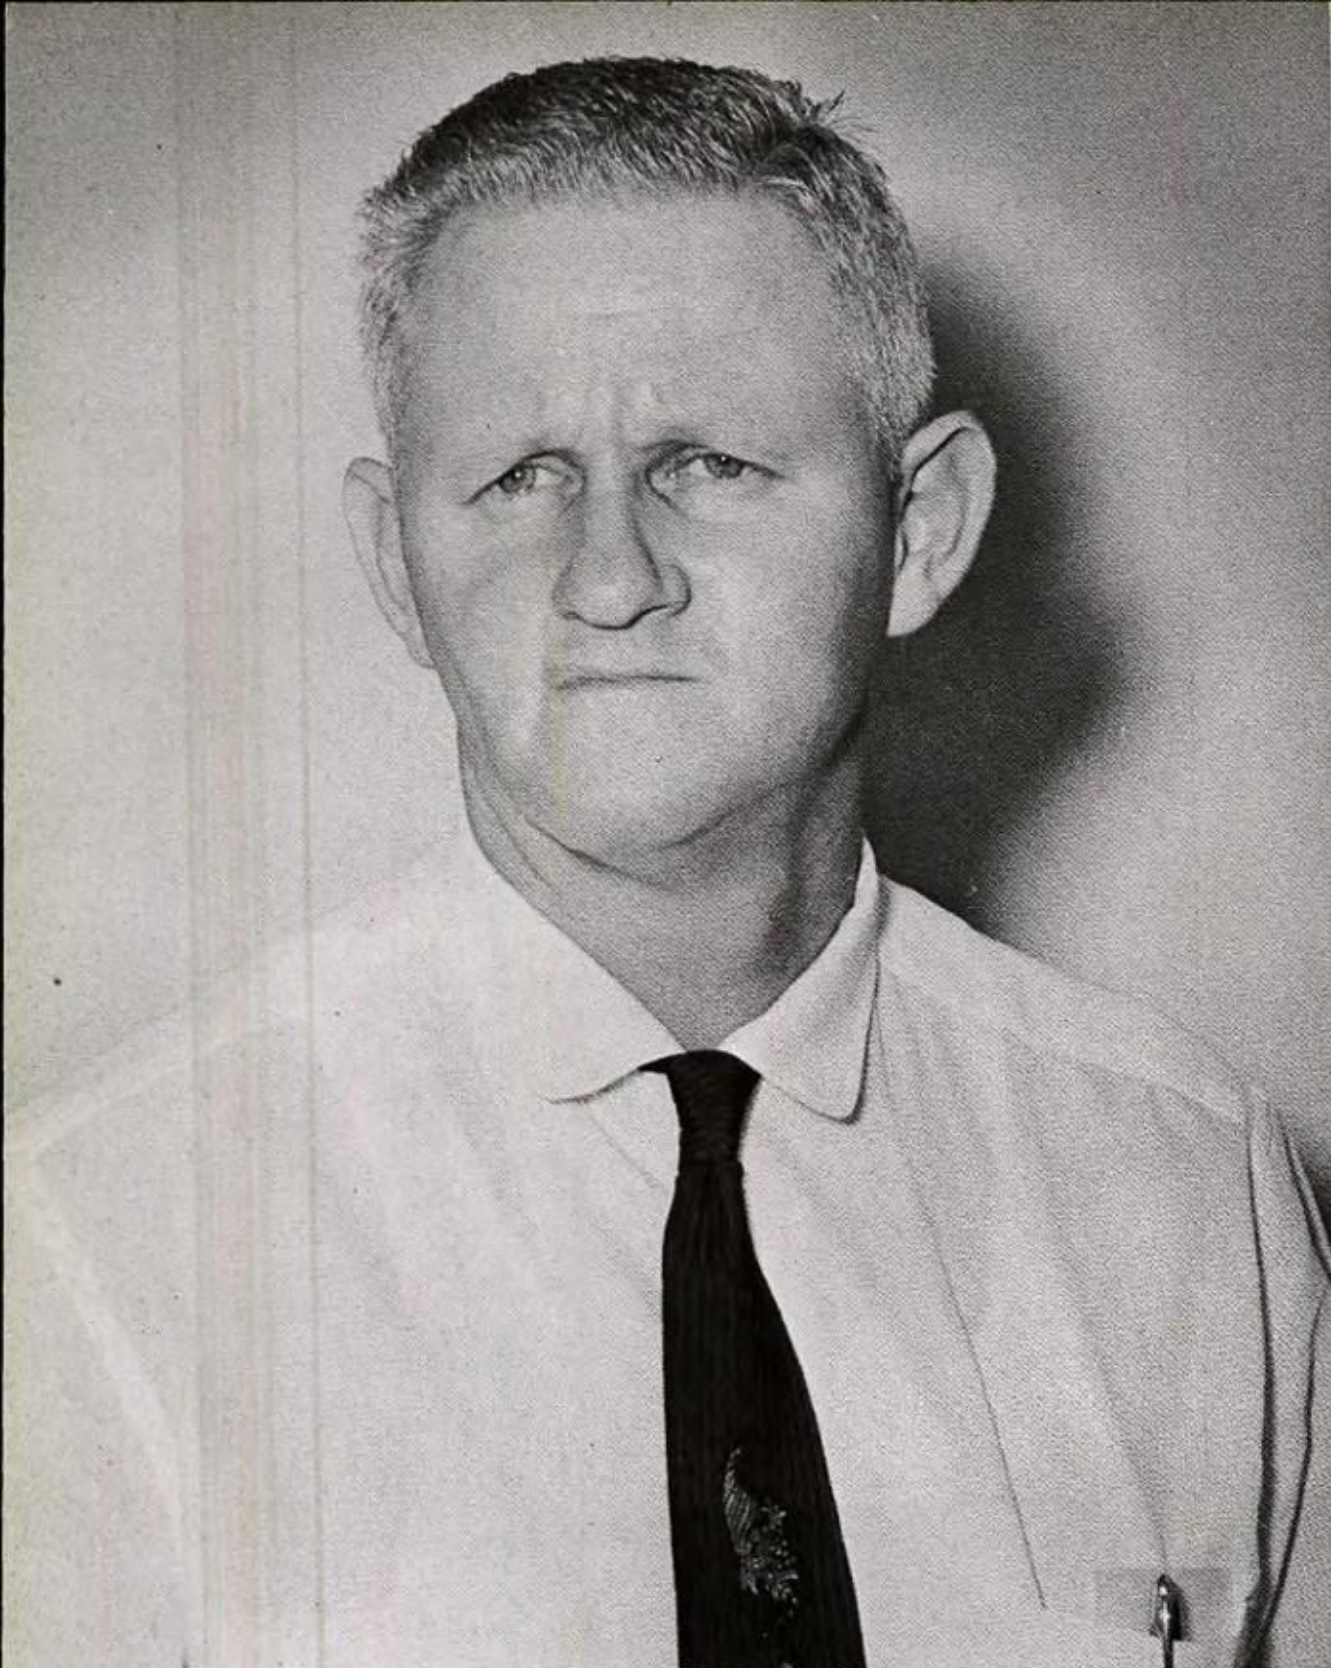

Valuable relationships between our school and community have been carefully fostered and preserved by your P.T.A. Their educational projects, social functions, and deep interest in the increasing academic standards have won the full support of many parents and teachers. This year under Mrs. Alexander our P.T.A. has worked together to undertake many plans concerning our futures. This has given our students the backing so needed for success in later years.

ATHLETIC DIRECTOR

In the launching of a rocket its space men must be superior in physical strategy and condition so they may complete their journey. So important in our daily activities is the fitness of our bodies. Under Coach Nelson as our director, the Seabreeze Athletic Program has developed much and become a valuable necessity to us at Seabreeze. Our admiration and respect for our director is reflected by the fine cooperation of the students supporting our teams.

BOARD OF DIRECTORS

To build this ship, plans must originate from countless ideas, fact, and trial and errors. The Board of Directors for our sports program has gathered and pondered over these and developed them into a more improved path for us to follow. Without these men our athletic system could not have progressed so and completed its stages in victory and sportsmanship.

1st Row-Mr. Miller, Mr. Hogan. 2nd Row-Mr. Rivenbark, Mr. Nelson, Mr. Simmons.

FOOTBALL

Mr. Simmons, Mr. Hogan
Mr. Rivenbark, Mr. Connor

HOGAN Mr. Fred Hogan as head coach of the Sandcrab football team for the past six years has guided his players through good and bad seasons into a depth of fine athletes and yearly victories. His unceasing vigor has

molded the team of 1958 into a well developed and balanced unit. Seabreeze owes to Coach Hogan much credit for fine teams built from his dedication to sports.

SIMMONS New to the varsity this year our "Arkansas Flash" has brought his experience up from our B squad and his superior coaching has produced fine playing from our

backfield. As assistant coach Mr. Simmons has helped our "Crab" football team to perform to the best of their ability.

RIVENBARK Coach Rivenbark has returned to coaching again after ten years of retirement and has moved smoothly and efficiently into our Sandcrab coaching staff. His ability and knowledge of football has not

only enabled members of the B squad to take the places on our varsity in later years but has also brought valuable quality to our coaching staff.

CONNOR Yankee born, Yankee bred—Coach Connor came to S.H.S. this year from Long Island and has added many new plays and ideas to our B squad. His understanding

of our players has given a valuable touch to their teamwork, which along with their fine sportsmanship has led them through many victories this season.

Tom Taylor—Asst.

Go Crabs! This year during the '58-'59 football season, our Seabreeze Sandcrabs went all the way to a successful 7 wins, 2 losses, and 1 tie season! Ripping our opponents for high scores and yardage gains our missile was propped, propelled, and perfected offensively!

In this team, proud triumph has shown teamwork and sportsmanship worthy of our season. As all deservers receive their credit, so our team receives their deserved esteem in our eyes and those of others.

September 19, Daytona Beach—Opening the 58 season the Crabs avenged the previous year's loss to Lakeview High of Winter Garden. Seabreeze thoroughly stomped the Red Devils with a crushing score of 46-14. Reserves and first stringers alike starred in this impressive rout.

September 26, Sanford—The Crabs invaded the home field of a strong, beefy-lined Sanford ball club. Seabreeze's line defense was vicious and the offense ground out the yardage and connected beautifully on four lightning-fast passes. Seabreeze hit paydirt twice to win their second one 13-0.

October 3, Cocoa—The Crabs journeyed confidently to Cocoa only to be stunned by a fast, tricky, Tiger eleven. The Tigers were "up" for it but Seabreeze wasn't. No excuses though—we were whipped 44-6.

October 10, Daytona Beach—The Sandcrabs took on a scrappy DeLand bunch to go for their third win against one loss. Seabreeze scored first but missed on the point-after-touchdown, enabling the Bulldogs to score and convert, taking the lead 7-6. After that DeLand couldn't do a thing. Seabreeze marched in all four quarters to send home an unhappy Bulldog team, 25-7.

October 16, Gainesville—Sporting a 3-1 record Seabreeze rode "strong" into Gainesville. Scoring on six out of the eight times they gained possession of the ball, the Crabs looked sharp and impressive. Although Seabreeze had one hundred-five yards in penalties there was no denying them the credit due. The boys from home completely outclassed the P. K. Yonge Blue Wave, 38-0.

November 3, St. Augustine—After an eighteen day layoff the Crabs took on the terrifically strong Ketterlinus Yellow Jackets. This was one of our best games of the season. The offense functioned perfectly and the defense was equally as strong. But the winner of the game is the team with the most points at the end of the game. They didn't out play us; though a couple of bad breaks gave them the advantage of outscoring us 25-19.

November 7, Daytona Beach—(Homecoming) The Sandcrabs surpressed a scrappy team from Bishop Moore of Orlando in a wild offensive show to the delight of a large homecoming crowd. Gaining over four hundred yards over land the Crabs made the Hornets defense look like water. In this very satisfying Homecoming game the score was a sparkling 40-29.

November 14, Daytona Beach—The Winter Park Wildcats came to town this weekend and they were loaded. The Crabs were handicapped by the loss of three key players which made it just about even. The pads started cracking at eight o'clock and didn't stop until about ten. Both teams scored once and failed on the P.A.T. It was a defensive contest all the way. Seabreeze 6; Winter Park 6.

November 21, New Smyrna Beach—This was one we had been waiting for a long time. The magnificent Seabreeze ground attack was launched against New Smyrna and wasn't to be stopped. The ball was moved up and down the field at will by the Crabs, and the Barracudas were held to almost nothing by an unyielding defense. Another sweet revenge—39-7.

November 26, Daytona Beach—The "58" edition of the Sandcrabs ended a fine season against Leesburg. This was the last high school game for fifteen seniors on the squad. We made it seven wins, two losses, and one tie by downing Leesburg 33-13.

With everyone's thoughts turning more and more to science, academic life at Seabreeze has become increasingly important. JUNIOR HONOR SOCIETY

Builders of its senior honor club is the Junior Honor Society, its members of the freshmen and sophomore years maintain like qualities and require-ments. As every ship's successful journey is planned from a small model, so is this club a model—ad-justed and used experimentally to assure its future accomplishments.

In this modern and atomic world men must cooperate and build friendship among nations in order to continue their quest for space. Our Spanish courses have given us understanding and respect for the customs of Spanish speaking people and have built strong relationships between us and them. The members of this club are those who have gained a thorough knowledge of Spanish as shown in the academic requirement. The Spanish Honor Society adds much to the well-rounded club life at S.H.S. and provides us with valuable acquaintances among our foreign neighbors.

LATIN CLUB

To become educated a person must first learn basic fundamentals. Latin is our basis for all languages and provides the first stepping stone for us to follow. HOMECOMING '58

HOMECOMING 1958! With weeks of preparation wrapped around November 7 this day was no less than fabulous. Rain clouds vanished and Seabreeze spirit burst out all over! Led by our widely famed "Marching Hundred" the homecoming parade was one of which we will ever be proud. Our fighting Sandcrabs were victorious over Bishop Moore and added perfection to all festivities; and the S.G.A. Homecoming dance, held at the Palmetto Club, as annually, ended our day daz-zingly.

In the midst of floats and banners, alumni, and students, buried under lovely chrysanthemums stood our S.H.S. 1958 royalty-Our sponsors, our King, our Queen. Crowned by our friend and loyal supporter Reverend Paul Edris D. D. were King Costa and Queen Jan-Long live their titles for they are well deserved! Thus in every way, was our Homecoming "Truly Tops!"

Jan Quinn and Costa Magoulus

Valerie and Charlie

Sandra and Jim

Gwen and Bill

Joyce and Pete

Next to our king and queen stand our sponsors. These eight seniors are favorites among our student body and were chosen to represent it on Homecoming day. Joyce Ann and Pete, following our royal couple, added a touch of sophistication and ease to the atmosphere. Wit and dependability mixed with Valerie

and Charlie, and in the middle of the fur collar was Gwen and escort, Bill. Charm and good-looks accompanied them. Sandra and Jim—talented, non-chalant—supplied the finishing touches to our court; all adding perfection to Homecoming '58.

SADIE HAWKINS DAY

It was Saturday night and S.H.S. wound a path into the heart of Dogpatch. Clad in potato sacks, straw hats, and patched dungarees, our "mountaineers" danced through mounds of straw, bumped into everybody, and finally found themselves "hooked" to their date in matrimony. Indeed this informal affair sponsored by the juniors was included by all in "the best of '58-'59!"

THESPIANS

A man who is able to relax under the strain of this Space Age, to find joy and fun—to find new refreshing ideas of enrichment is indeed a fortunate man. The Thespians can do this. The ingenious members of this club play an important role in providing entertainment and light productions for the SHS students. Long hours of practice are required to produce their skits, speeches, and full length plays, all of which enable us to continue our studies refreshed by new ambitions and thoughts.

Left to right-Sara Woods, Jeanette Holland, Barbara Wartman, Miss Lillian Trawick, sponsor.

JUNIOR CLASS PLAY

Like being enrapt in a world of shooting stars and flying saucers the audience of "Time Out for Ginger" was enthralled by the comedy and characters of this play. Ginger, played by Gwen West, stood strongly for her rights as a football player on the high school team and won not only her principal's consent but that of the on-lookers as well. Indeed the '59 Junior Class play will be long remembered to all.

"Miss Band salutes you!" Bubbling over with pep and prettiness, Sandra, in this way began her winning talent skit in the '59 Miss Seabreeze contest. To a drum background she twirled two batons ending with her solo on the echoing kettle drums. A smile, charm, and a red taffeta gown readily won her the student body's applause. Runners-up Jo Ann (giving a monologue about funny little girls) and Barbara Wartman (reciting a dramatic reading) through their fine performances kept us in laughter and yearning; respectively. Together all fourteen contestants made "The Garden Scene" an event to remember. S.H.S. salutes them all!

This year Sub Debs has been recognized as a separate service club and through its many community projects has earned equality with our other school clubs.

Peninsula Club sponsored, the Sub Deb members are chosen for their ability to serve and to become well-trained civic club women and work constantly toward their high ideals and strive to rebuild their club "reborn."

D. C. T.

Today almost every high school in Florida has undertaken the Diversified Cooperative Training Program. This program began sixty years ago upon the decision that students were becoming long on application. The students in this plan earn credits for graduation during one or two years in some place of business which provides valuable experience and opportunities for their future plans.

TRAVELING - 20

1st Row-Ursula Krons, Jean Murphy, Elaine Nessella, Peggy Davids, Barbara Adams, Susan Goddard, Leslie Kirkland. 2nd Row-Marianne Stelpstra, Sharon Powell, Jon Adkins, Costa Magoulas, Dean Mitchell, Suzan Kroll, Carolyn Derby. 3rd Row-Gordon Louria, Jim Hughes, Richard Bird, Charles Lando, Geoff Kirkland, Steve Dodge.

"Have Music-will travel" is the theme of the newly organized "Traveling Twenty" which at the requests of schools, churches, and various other organizations went to their meetings and special occasions carrying the Seabreeze spirit with them to Daytona and other cities of the state.

FACULTY HI-Y GAME

Another first at Seabreeze was the hilarious Hi-Y-Faculty game. From the tuxedo, representing the "Dress-Rite" Program to leo-tights, the teachers, known as Mr. Berger's Hawaiian Play Boys, set out to prove themselves still in "shape."

The Hi-Y, dressed in pajamas for the warm-ups, were even more determined that they beat the teachers.

The game, although anything but legal, ended in a tie.

THE PROM

Springtime in the Orient! The streets of Hong Kong are lined with cheerful vendors who have brought wild blossoms from near by fields—Tokyo is bursting forth from a snowy winter to decorate their fragile homes with greenery and fresh colors—The gardens of Shiang Hai transform into wonderlands of enchantment-trickling brooks, grass patches, tiny bridges and paths—

soms from near by fields—Tokyo is bursting forth from a snowy winter to decorate their fragile homes with greenery and fresh colors—The gardens of Shiang Hai transform into wonderlands of enchantment-trickling brooks, grass patches, tiny bridges and paths—

Such an atmosphere was beheld on this night in May-casual, late hours-the next day at the springs-These were all a part enabling us to remember a special night with a special date and wonderful, magical moments in an "Oriental Garden."

The Seabreeze "Marching Hundred"

The "Space Age" has also influenced the half-time efforts of the Seabreeze "Marching Hundred." With Cape Canaveral almost at our back door—the scientists and airmen of that establishment were honored with a rocket launching that awed the spectators. Twinkling lights and flaming batons formed the three stages of a satellite launcher; as the band moved down the field, each successive stage moved out into space until the satellite itself went into orbit.

As sophomores, we became a part of our world of new ideas and actions. From these we formed newer results and by them we were propelled into the years ahead.

Juniors

Mr. Freeman, Mrs. McConnell, Evalyn Brown, Sammy Butler, Mike Schultz, Carol Montgomery, Mr. Rivenbark, Miss Douglas.

Second stage is the testing stage. During this middle operation the results of our departure are examined and we see that our ship has worn well. Careful preparation in earlier years has enabled our juniors to continue and complete their destination.

The junior year is the large step in completing our high school years. During this year we grasp responsibility and suddenly awake to the nearness of our future. Upon completion of our junior year we have become to fill the places of the seniors and we begin to construct our own ship to outer orbits.

Miles out in space we see our last stage being released. Soon we may observe the results of our work, time, and co-operation. We have set our ship straight, we hold all controls. The orbit which we choose will be the one toward which our mechanics, from their long hours of work, have guided us.

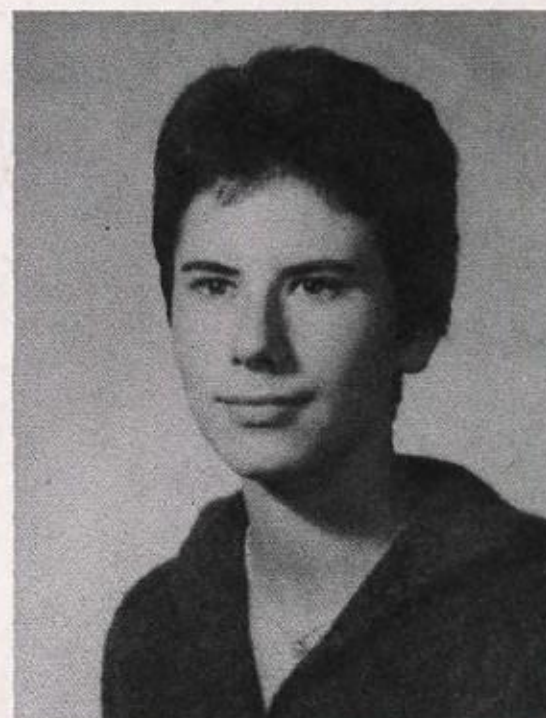

Together the graduating class of '59 has completed its stages in preparatory education. Together they will continue. With tests completed and trial runs fulfilled we launch into our future.

"THE DREAMS OF YOUTH ARE THE PROMISES OF TOMORROW."

SENIOR SUPERLATIVES

In far off lands and outer spaces you may search to fill these valued places, but try as you might you won't succeed for these that we chose are the best indeed. With greetings and laughter and prank-playing, too, they have awakened feelings in us anew. With compasses set and courses charted, preparation completed, and new orbits started, their abilities their stage and they the cast. They will play strong parts in this world so vast—So happy so gay and yet so fine. These senior superlatives of '59.

MOST INTELLECTUAL

Cherrie Morgan and Alex Wilson

*Cherrie and Alex
Through years of toil,
To this valued position
Have remained loyal,
And underneath
Their 100's and A's
There's loads of fun
And a mite of craze.*

Gwen West and Costa Magoulus

MOST VERSATILE

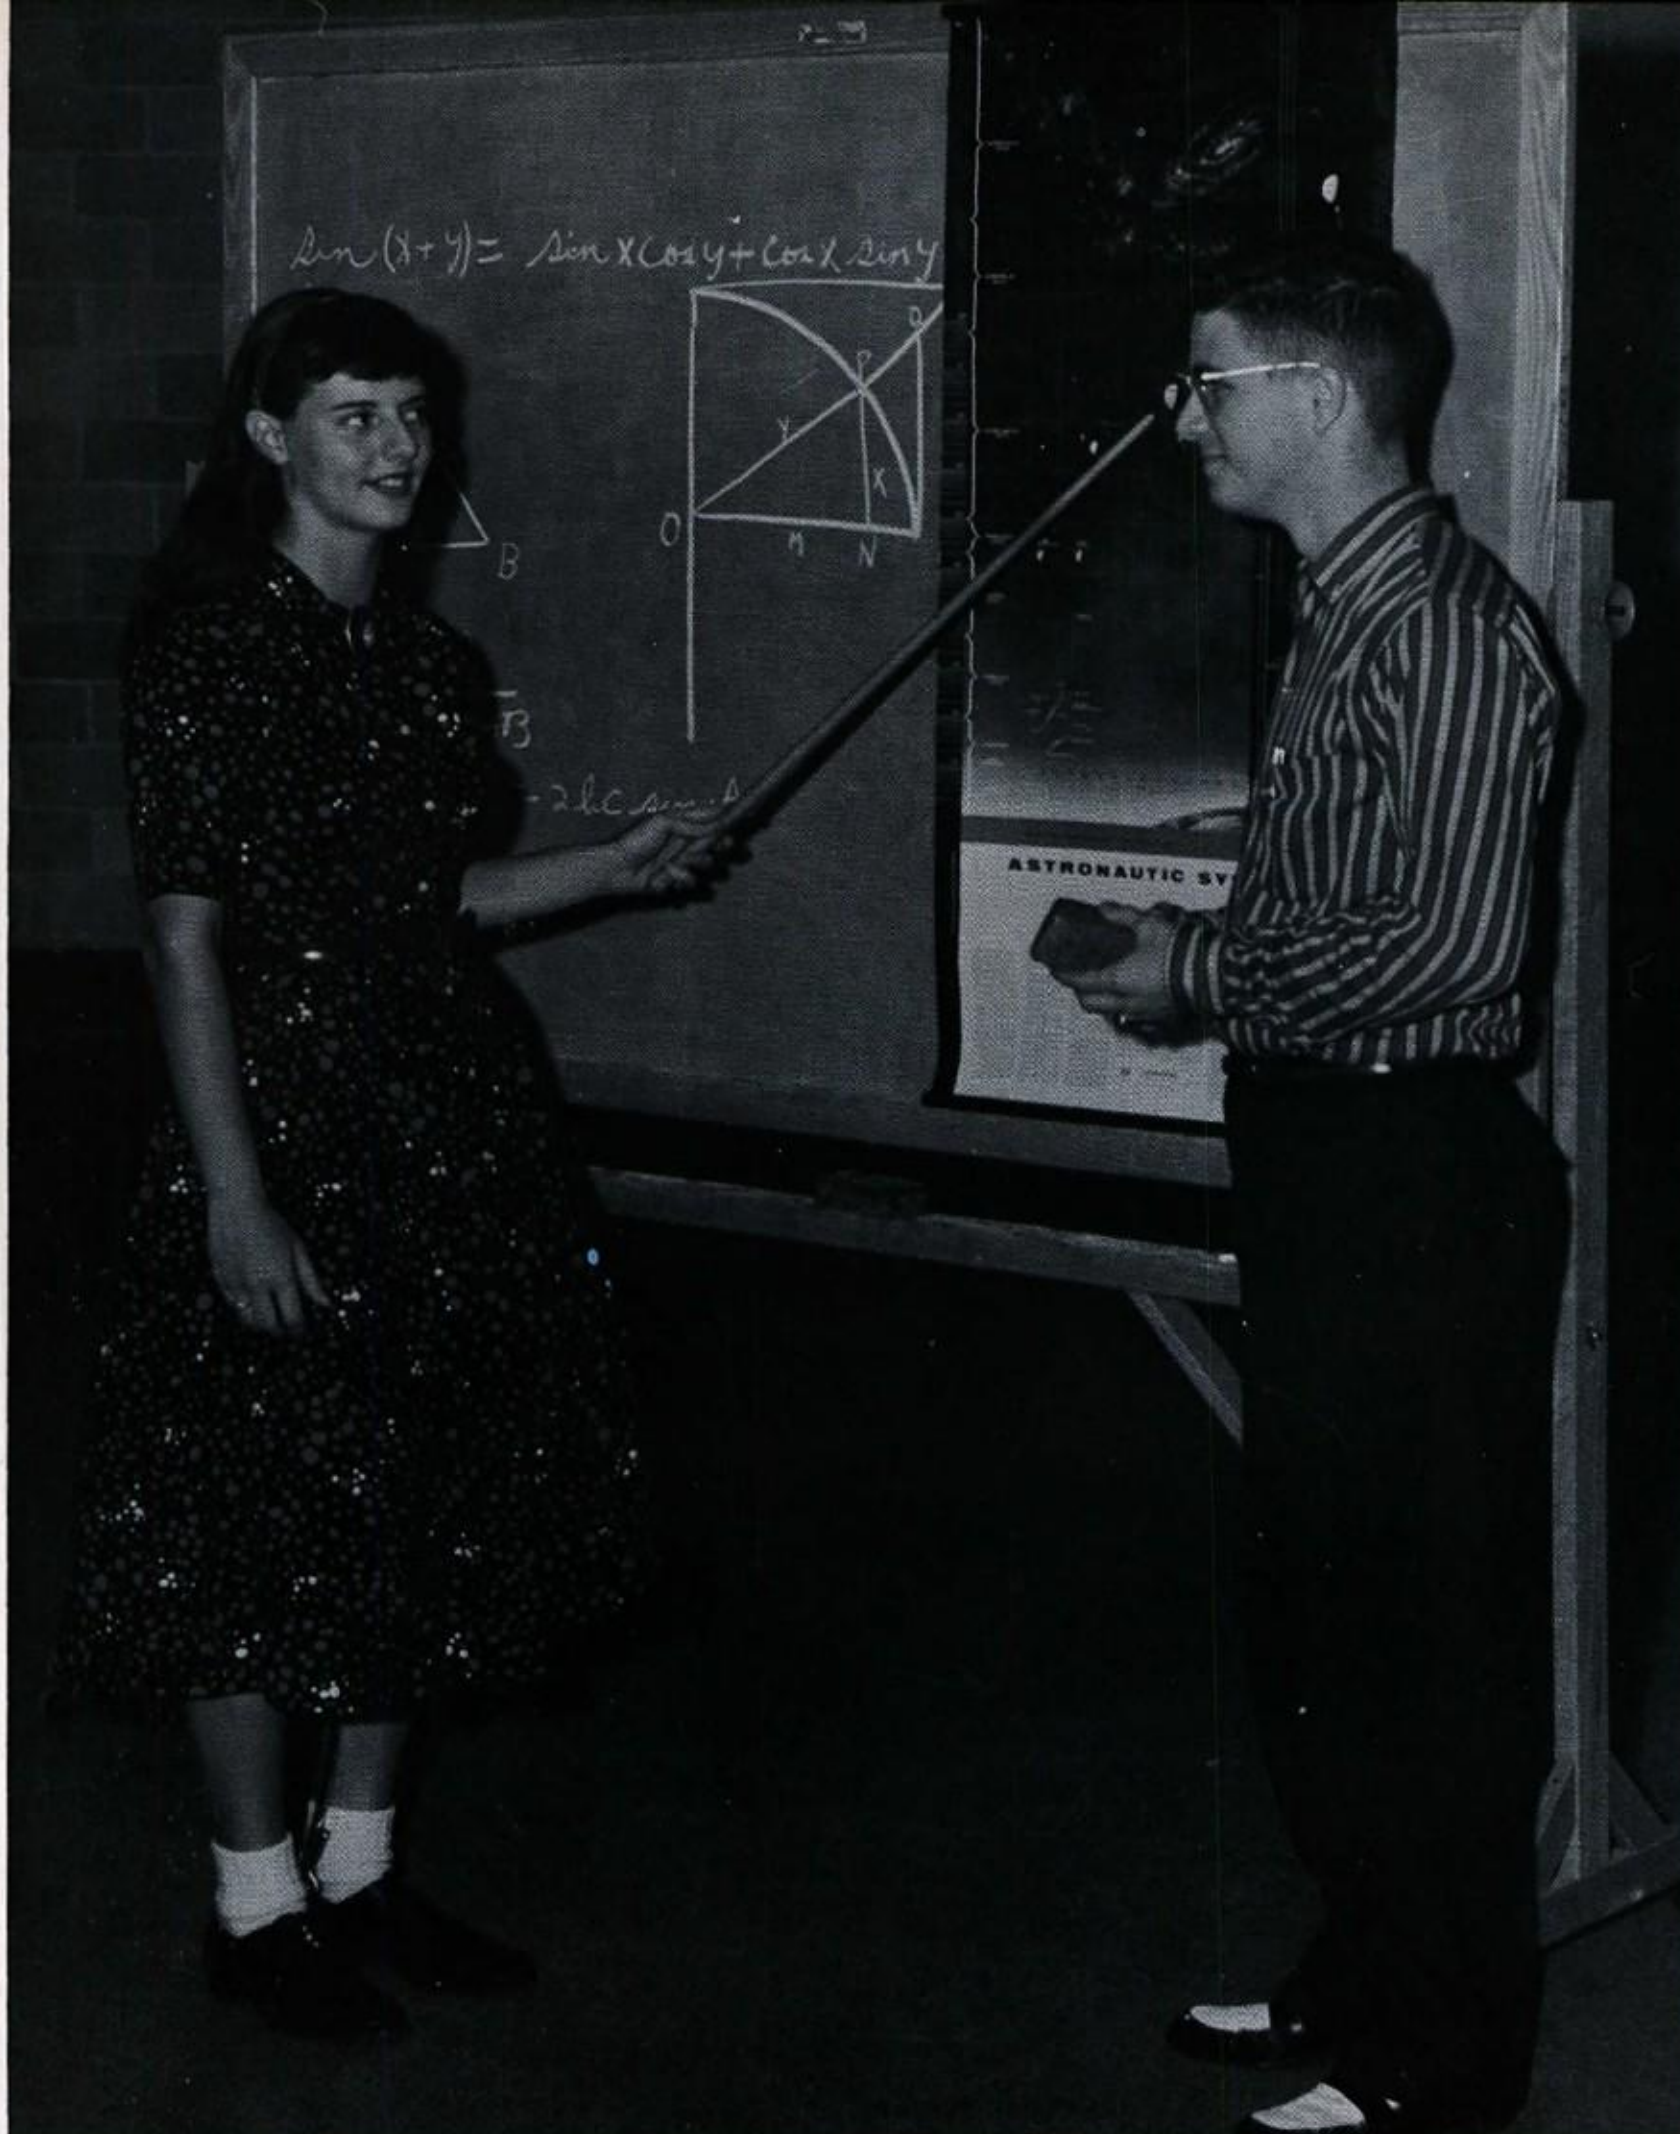

Gwen and Costa,
Fair and dark;
A touch of flavor,
A touch of spark.
In all goings on,
'Round school we see;
These two taking part,
So willingly.

MOST POPULAR

Jan Quinn and Pete Rogers

*Fun loving, adorable
And very fine
Are the favorites
Of the class of '59
Her smile and his ways—
Vivacious, "cool"
Make Jan and Pete stand
High in our school.*

Mary Weller and Norman White

MOST DEPENDABLE

Serious much
 But never always
 Mary and Norman
 Earn fun with their praise.
 In many activities
 And ever so busy
 They work calmly
 Through many a tizzy.

MOST ATHLETIC

Willie Lager and Polly Montague

*In athletics,
Here at school;
At the field, the courts,
Or the swimming pool.
Willie and Polly,
Are making the rounds;

CLASS PROPHECY

June, 2000 A. D.

I remember it well. I remember the city, growing so rapidly and prosperously on tourist trade—An informal city, and easy city—It was washed clean by the breeze and the sun. I remember the beach, our World's Most Famous Beach, famous for its pier and boardwalk, its hot dog stands and width at low tide, famous for its ocean, vast and blue. I remember the auditorium in which the class of '59 was last assembled and mostly I remember the impressive old high school, nicknamed "Pale Green Alcatraz" because of its color. Days have turned to months and those to years. Time has flown quickly and seldom do I reminisce. But occasionally—very occasionally—I catch a glimpse of someone whom I knew long ago - - - Long ago, back on Earth.

Why, just yesterday in my spacemobile I journeyed to yonder star and who greeted me but its guardian JIM DAUGHERTY. He showed me the new completions since my last visit, the most impressive was the dome-shaped glass communications building designed by JIM CHANDLER. Upon noting the well-proportioned structure I knew no other than DOUG FORSYTHE, DICK EDSON, and DAVID LEETE could have been its architects. Inside this immense "palace," I found myself in a hall in which the lighting was so bright that it seemed as if it were sunlight. This radiance was a chance discovered of BUZZ PINCKARD and Co. SHARON POWELL, sitting at the information desk, handed me an ear phone connected to batteries through which a voice would tour me from room to room. In one room I stood before a wall covered with flashing lights and many dials. However could electricians JERRY JEWETT, STEVE TURNER, JOE KEENER, and JOHN ADDIS, have put all of this together? I saw the radar room and was introduced to head-control man MAC MERRELL. A tremendous screen stretched wide across the room and I was amazed to see news commentators TOM GOLDSMITH and JANINE HOVERSEN, and advertisers, GLENDA GRAY, LINDA HOLLOWAY, and DEAN MITCHELL broadcasting on a radar screen! What became of T.V.? Every once in a while I glimpsed electrical engineers BOB EDMUNDS, ALEX WILSON, and SINCLAIR STEWART hurrying back and forth among the laboratories. They look so busy and official.

In and out, up and down, my earphone guided me through the building. Back in the lobby I paused for a moment to return the guide instrument and ask directions of stenographers BETTY MIXON, and NANCY SIMPSON. They told me about the industry plant, also new here, and of other building projects going up. In 15 minutes I arrived at the plant and saw for myself how it operated. Manager BETH MERRELL and her assistants, JIM HUGHES and KENT FOSTER, were directing the installation of a recently arrived "atomic machine." This machine produced tremendous quantities of "Space-Edsels" without the slightest use of man power. Mathematicians were used; however, to calculate the counting machine's figures. Among these were SUZANNE INSKEEP and CHERRIE MORGAN. I am certain they dream of lopsided figure 8's and misplace 0's in their sleep!

Throughout the entire plant I searched in vain for a water fountain. A salesman, DAVID FRY, from a neighboring star caught my thirst-quenched gaze and offered me some "Moon-Cola," a conglomeration of his and his employers, DALE OWEN, STAN TAYLOR, and TONY MELACHRINO.—Bubbles, bubbles-It began to foam over! (I imagine it wasn't suppose to be shaken.)

Back again in my spacemobile I meandered about the community, astonished again and again at the new additions. The atmosphere of Star Drive, the main street, was enchanting. Men-about-town, BILL BRILEY, JOHN McCORMICK, BRUCE HENRIKSEN, and DOUG MATTOCKS, strolled down the curved walkways between offices, etc. Curved palms and oleanders graced congested areas. They were planned by landscape architects PHILLIP REISER, ANNE LEWIS, and JOAN HARRINGTON. Music drifted from above as if from Earth. Its composers SUSAN KROLL and PAT MILLIGAN now perform nightly at the local Space Shell. Of the fine players making up their orchestra are MIKE MURPHY, CAROL LEGGETT, and RONALD HACKNEY. On this avenue were department stores owned by LINDA BUESCHEL, MARTHA BURNHAM, TOM MITCHELL, and JACK RANSOM. These are set low and back to give a modern day effect. There were museums of history and speed directed by JIM GIRARD, JACK HARTJE and GEORGE MAYCOCK. (Of course the later contains the out-of-date Impala and Thunderbird.)

Between these buildings and running opposite them was the park, to me the most beautiful in the universe. Its wild life consultants, JUDY ZEN and BARBARA SANCTUARY, have brought animals from far distant stars to live in this fantasy of nature. Penguins, even, on the iceberg floating in the lake. These were chilled by mammoth pipes, etc., maneuvered by JOHN WESLEY, KEN CLACK, DARRELL CYPHER, and Contractors, RIP VOORHEES, QUIN VOIGT, BOB SMITH, and ROGER PEIRSON had constructed other lakes, hills, and small grass openings. Through this park were paths enabling the inhabitants of this star to visit it. School teachers, MARY MURRAY, CAROLYN DERBY, LESLIE KIRKLAND, and GRACE DRISCOLL brought their classes here as a biology lesson; ANNE SPENCER AND VALERIE TUCKER set up their easels and captured still-life on their drawing boards; and

botanists, BUFORD CANNON, ED CALCOTT, and JAMES WOLF studied the different species of plant life which grew so sparsely. Giving their twenty-four hour duties a break, were housewives, RHODA KEPHART, SANDRA GONZALEZ, and JOYCELYN GWIZD who stroll along and discuss their home life.

At one point in this park I looked out over "The Orbit-Theatre of Outstanding Arts." Here were sculptorings of universe-famous GEORGE STORANOV; novels and philosophies created by SANDRA STEDMAN, CHARLIE LANDO, and JO ANN BAERNSTEIN; and poems of imagination by LORI GAGNER and JUDY GREAVES. Here were works of NORMAN WHITE and MARIANNE STELPSTRA, concert organists; blueprints of this very community drawn up by PAUL SPENCE and MARY NELL HODGINS; and plays in which widely known actors PETE ROGERS, BILL GREENLEE, NANETTE HANSEN and GWEN WEST performed. These cultures and creations are often visited by celebrities from different space sites and has thus earned high esteem.

Beyond the theatre to the left of Star Drive, I came upon the health auditorium. In the high, arched tumbling room I saw acrobats PAT CORBETT, CC THRANHARDT, and DIANNE DORSEY, turning easy flips and double bends on a huge trampoline. Beyond a glass partition was the choreography class. So graceful were dancers, DIANNE ROSE, PHILIP JACOWITZ, RONNIE WHIRLOW, and DARLA DANIELS. They work up shows along with the "Warbling Trio," TED MERTHE, PAT CROSBY, and COSTA MAGOULAS, and their guitar accompanists RONALD BOWLING and LEE HAZEN. Special recordings are made of this group—long playing records with 45 rpm's inside—an ingenious patent of JORDAN EISGROU, INC. These are distributed from one end of the universe to the other by agents MARK MINCEY, and SARA WOODS. Downstairs I found WARD LOVELESS ferociously beating a punching bag while his trainers HAL McANNEY and JOE ELLIS chewed their cigars and frowned over crowded schedules for the coming season in '01. Running this tremendous health auditorium is a "Board of Betterment" consisting of BARBARA McCLINTOCK, LOIS KUHNER, MARLENE ABRAMS, and GLORIA MAURER. They are responsible for all youth activities on this star and from suggestions of youth directors MARY SMITH and JAMES TAYLOR promote new and interesting programs.

There was a hill past the small lake in the park upon which was a home—quiet and casual—for career people. (artist, writers, etc.) Many came there to work at their leisure. Here in their studio DAVE ROSS and JERRY ROGERS toiled over figures they modeled so perfectly with skilled fingers. ELEANOR HARDIE, FAY FOGG, and BONNIE BARBOUR cut, stitched, and arranged cloth in the newest fashions of the century. Their models JOYCE HENDERSON, KITTEN NELSON, SUZANNE NILES, and DIANNE NOONE strolled over the grounds to give the designers the real effects of their creations. There were retired professional men from far away places. Oilmen, RICHARD GRAHAM and DAVID SHERIDAN; ex-ambassador to Mars, JOHN ALLEY; and heiresses of valuable space territory, ROSALIE LAKE, SANDY SHAW, and BETTY RAND. I could easily understand how they were happy here with a thriving community, a restful view of the deep greenness of the park, and underneath them an awakening star.

Before I left for my home, I was honored by a festive affair given for me. Here charming hostesses JUDY McCracken and JUDY FARRELL introduced me to socialites, politicians, etc., including JAN QUINN, SALLY WILKIN, JEANETTE HOLLAND, and JIMMY CLECKLER, JON ADKINS respectively. What an occasion! In this room were lovely tapestries and drapes which accented the blonde "plastic-aluminum lounges," arranged, of course, by interior decorators BONNIE BAGGETT, DONNA DORSEY, ANN LINSOTT, and ELIZABETH MANUS. Two prominent-looking men, MIKE DUGGER and JOHN TODD left suddenly after a telephone call. I then knew they must be doctors, off to their clinics on Star Drive. Close behind were nurses KAYE DALTON, ELLEN TAYLOR, MARY WELLER, and BONNIE PAULK. But there were so many people and so much conversation - - - I met DICK VEINOT and AL BUSCHMAN ("Messers. Debonaires") Certainly everyone was their friend for they had a knack of happy-go-luckiness. DAVID COLLINS, WILLIE LAGER, and GORDON LOURIA, sportsmen, arrived next. I really expected to see coon-skin caps and fringed jackets but no - - - Speaking of politics, CHARLIE OATES, BILL BAGGETT, OLIVER POWELL, and EDDIE COFFMAN were telling many of us of their "perfectly wonderful" campaign tours around the universe. (Could be that their secretaries JUDY COCHRANE and GERRY LEONHARDT, had something to do with that.)

Later upon getting ready to leave, I rode for my last time down Star Drive. It was late afternoon and many stores were closing, DICK FANUS and JIMMY STEPHENSON were locking the gates of their F. & S. Space Edsel Company; reporter VIRGINIA BUCKNER was hurrying back to her editor with copy for the "Evening Spacette," and BILL BOYD, GARY GOLDBERG, and JOHN KALASHIAN, law enforcement officers, were heading homeward

looking forward to an evening of relaxation. Past the congested area I glanced down a side street and saw pro-ball players (none other than DANNY WESTBERRY and BILL ISENBURG) practicing their curve and knuckle throws, with extreme acuteness. They, also, are getting ready for the coming season and their coaches KEITH DIXON, STEVE DODGE, and TIM CHALKER work them out constantly. Edging by these ballplayers was a sleek spacemobile whose glass top was tinted "lavender." Inside were GENE GARDNER, CLAUDIA LENTZ, and PEGGY ADAMS, home consultants and salesladies for Moonlon Cosmetics. They took with them BEVERLY WOODFIN and BARBARA WITZEL, make-up artists who did wonders to many housewives.

It seemed as if a procession followed them. Right behind were SANDY EINHORN, MARY HUNT, and JUDY LAW, rushing frantically to get to the governmental building in time to give their speeches in favor of accepting a new planet into the universe system. They had persuaded race drivers JACK TAMM and JAMES RUSSELL to whiz them there quickly but traffic was so slow - - - DOROTHY ALMY, JEAN MURPHY, and FAYE WILLIAMS followed on their way to the orthopedic center where they gave their services as occupational therapists.

Further away I drove and the city grew minute in the distance. I looked back upon rolling fields and saw "agriculturists" DAVE STEINFELD and STAN ALEXANDER, tramping homeward to their elevated swimming pools after a hard day's work under the tree. I saw last the monument rising serenely from the mayor's garden, back in the city—a statute for the tomorrows of peace in space—so lovely, so impressive—The tall figure with head held high was a model of SCOTTIE McCORMICK, well-known beauty throughout distant lands.

- - - The Star is gone and I have returned to my daily ritual. My journey is complete, only to become alive again by day-dreams or reminiscences. Yet, so vaguely familiar was the street, the park, the people—as if once I were a part of them, Long, long ago. Yes, I remember it well—

"Free At Last"

hey -

Goodbye! Just
like that. Boy
just wait till
next year, and see
how fast it goes.
It really doesn't
seem so but it's been
9 (very short months).

Believe me - I'm not
anxious to become
an ant in the world now
after being sheltered
so long. It's got to
come sometime
tho - so it might
as well be now.

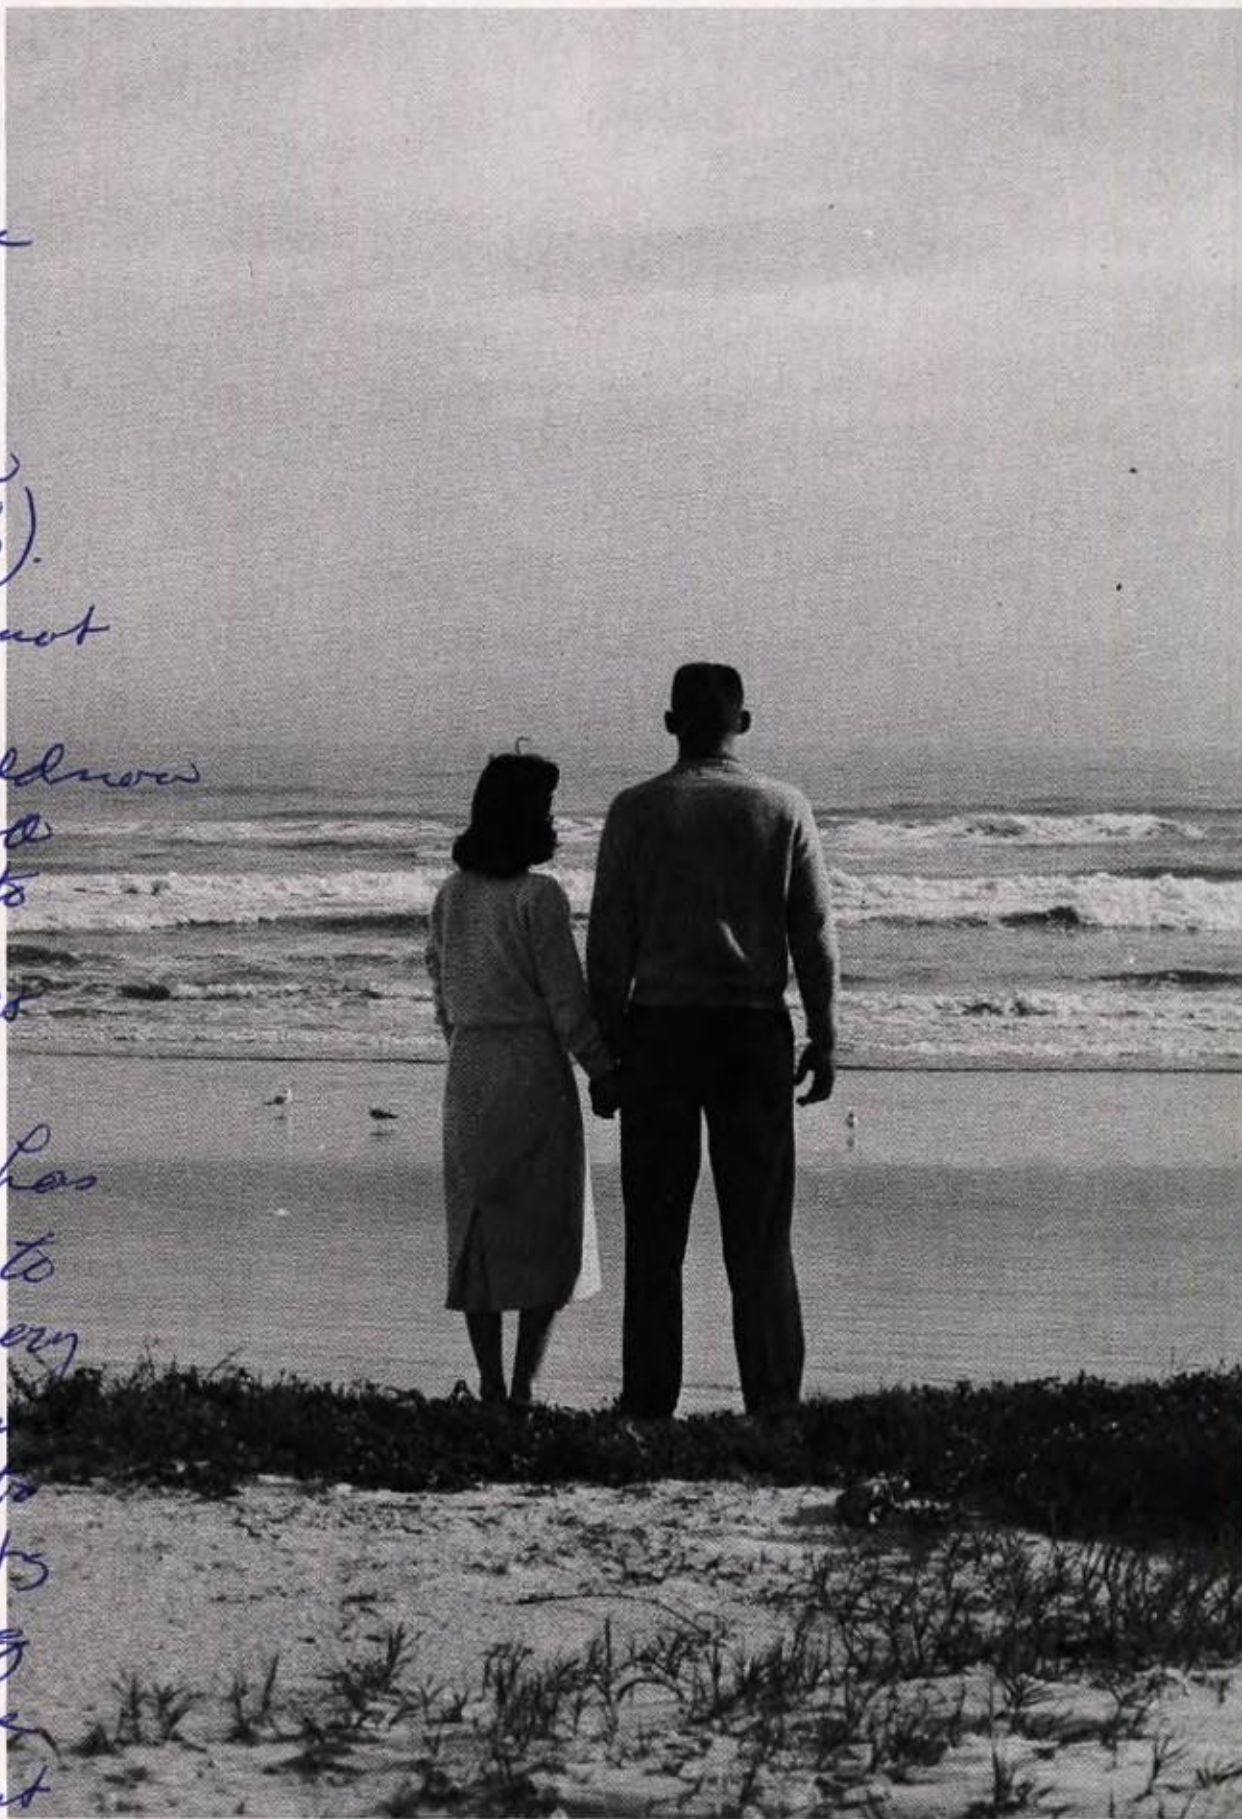

Knowing you has
been a privilege to
me - you're a very
down to earth and
I'll suggest you to
anyone who wants
to talk something
over with someone
you've always got
the answers.

It's been fun going to SHS all these years. I
don't have to tell you to take advantage of all
you can in school. I've got a feeling I'm going
to be lacking something next year that I haven't
taken the trouble to pick up here.

"The dreams of youth are the promises of tomorrow"

Best wishes to a fun girl
